INDEPENDENT AUDITOR'S REPORT

Board of School Directors Northeastern School District Manchester, PA 17368

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Northeastern School District, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Northeastern School District, as of June 30, 2018, and the respective changes in financial position, and where applicable, cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, during the year ended June 30, 2018, the District adopted new accounting guidance, GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits other than Pensions (OPEB). Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the district's proportionate share of the net pension liability, schedule of district pension contributions, schedule of the district's proportionate share of the net other postemployment benefits liability, schedule of district's other postemployment benefit contributions, and schedule of changes in the district's total OPEB liability and related ratios on pages 4 through 17 and 61 through 67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Northeastern School District's basic financial statements. The combining fund financial statements and other supplementary statements listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

Board of School Directors Northeastern School District

The combining fund financial statements and other supplementary statements listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund financial statements and other supplementary statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Northeastern School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis For Fiscal Year Ending June 30, 2018

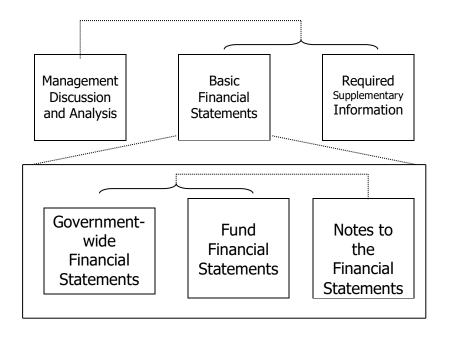

The Management Discussion and Analysis of Northeastern School District provides an overall review of the school district's financial activities for the fiscal year ended June 30, 2018. The intent of the discussion and analysis is to look at the school district's financial performance as a whole. Readers should also review the financial statements and notes in conjunction with the discussion and analysis to enhance their understanding of the school district's financial performance.

Overview of the Financial Statements

The Annual Financial Report consists of various financial statements and the notes to those statements. The financial reports consist of government-wide and individual fund statements. The government-wide statements present an aggregate long-term view of the school district's finances. The fund financial statements focus on the short-term financing of the school district's services and what remains for future spending.

Figure A-1 demonstrates how the required components of the financial section are arranged and correspond to one another:

Government-wide Statements

Statement of Net Position and Statement of Activities

The Statement of Net Position and Statement of Activities reflect all assets and liabilities using the accrual basis of accounting similar to the systems used by most private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash was received or paid. These statements report the school district's net position and changes in those assets. This change in net position is important because it identifies whether the financial position of the school district has improved or diminished.

In the Statement of Net Position and Statement of Activities, the school district is divided into two categories of activity:

Governmental Activities – Most of the school district's programs are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, and extracurricular activities.

Business-Type Activity – This service is provided on a charge for goods and services basis to recover the expenses of the goods or services provided. The Food Service program is reported as a business activity.

Fund Financial Statements

Fund financial reports provide detailed information about the school district's funds. Funds are used to separate financial transactions to better monitor specific activities.

Funds at Northeastern School District include:

- Major Governmental Funds
 - General Fund
 - Capital Projects Fund
- ♣ Non-major Governmental Funds
 - Football Athletic Fund
- Proprietary Funds
 - o Enterprise Fund Child Nutrition Services
- Fiduciary Funds
 - o Glatfelter Scholarship
 - o James P. Dietz Music Scholarship
 - o Charles Sutton Memorial Scholarship
 - o Zions View Trust Fund

Financial Highlights

- Total governmental net position increased by \$1,487,769, when compared to the restated 2017 figures.
- 4 GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, was implemented during the fiscal year. The school district's total OPEB liability was \$9,128,586, which had an adverse effect on its net position.
- Total governmental capital assets decreased by \$2,336,435. This was primarily due to depreciation expense that was offset by building improvements, equipment, vehicles and technology infrastructure acquisitions.
- Total governmental current assets increased by \$3.6 million as a result of an increase in cash and cash equivalents.
- ♣ Actual governmental program revenues increased by 2.18% while governmental program expenditures increased by 2.84%.
- Total outstanding debt decreased by \$3,138,000 due to the repayment of principal on existing bonds.
- → Total governmental fund balances equaled \$17,140,795. The following shows the breakdown by fund:
 - o General Fund Balance of \$10,384,109 (\$2,775,000 committed, \$3,500,000 assigned and \$4,109,109 unassigned). The committed and assigned fund balances are comprised of \$2,000,000 to cover future increases in the PSERS retirement rate for the employer, \$775,000 for high school renovations and \$3,500,000 for future capital needs.
 - o Capital Projects Fund Balance of \$6,674,578.
 - o Football Athletic Fund Balance of \$82,108.

Governmental Activities

On June 30, 2018, the school district had a total negative net position from governmental activities of \$69,892,339; which was a decrease of \$1,487,769 or 2.30% during the fiscal year. Total governmental assets increased by \$1,285,380 and deferred outflows decreased by \$1,063,710. Governmental liabilities increased by \$5,521,361. Factors that significantly affected net position in the 2017-2018 fiscal year were:

- ♣ The Net Pension Liability increased by \$672,245, totaling \$97,501,122 for the year ending June 30, 2018.
- GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, was implemented during the fiscal year. The new standard resulted in a year-end liability of \$9,128,586 for Other Post-Employment Benefits.
- ☐ General fund cash and investments decreased by \$1,094,912 from the prior year, capital reserve cash increased by \$4,030,049 and non-major governmental funds increased by \$9,357; totaling a governmental-wide increase of \$2,944,494.
- ↓ Total governmental assets increased by \$1,285,380 or 1.48%. This was attributed to an increase in cash and investments of \$2,944,494, an increase of \$365,053 in governmental receivable, an increase of \$348,921 in taxes receivable and asset additions of \$1,062,660. These increases were offset by depreciation expense totaling \$3,634,912 for the 2017/18 school year.
- ☐ Total current liabilities increased by \$1.1 million or 14.39%. This increase was due to additional accrued payroll deductions and withholdings, year-end accounts payable and the current portion of long-term debt.
- Total non-current liabilities increased by \$4,397,705 or 2.70%. This increase was largely due to the rise in other post-employment benefits (OPEB) of \$7,409,621. The decline in Bonds & Notes Payable helped to offset the increase in the OPEB liability.

Governmental program revenues increased by 2.18% from \$67.4 million to approximately \$68.9 million.

♣ Operating grants, capital grants and contributions increased by 4.58%. The majority of the increase was attributed to the state portion of the retirement reimbursement, which represented \$586,348. As the employer's share of employee retirement contributions increase, so will the reimbursement from the

Management's Discussion and Analysis For Fiscal Year Ending June 30, 2018

- state. The district received reimbursement for 50% or 60% of retirement expenses, depending on the employee's classification.
- Property tax revenue increased by 3.82% or \$1,433,369. This category includes current real estate, delinquent real estate and interim real estate taxes. Current real estate taxes increased by 2.87% or \$1,024,640 due to an increase in assessment value. There was no increase in the real estate millage rate.
- ♣ Other taxes levied revenue experienced a decrease of 3.64%. This category includes earned income, per capita, occupation, real estate transfer, and other delinquent taxes.
- ♣ Grants and subsidies not restricted rose 2.12% from the previous year's figures. This category includes the District's Basic Education Funding and State Property Tax Reduction.

Property taxes contributed to 56.48% of total revenues for governmental activities at Northeastern School District in the 2018 fiscal year. Other major contributors to revenue included grants and subsidies not restricted at 18.30%, operating grants and contributions at 17.65% and other taxes levied at 5.83%.

Management's Discussion and Analysis For Fiscal Year Ending June 30, 2018

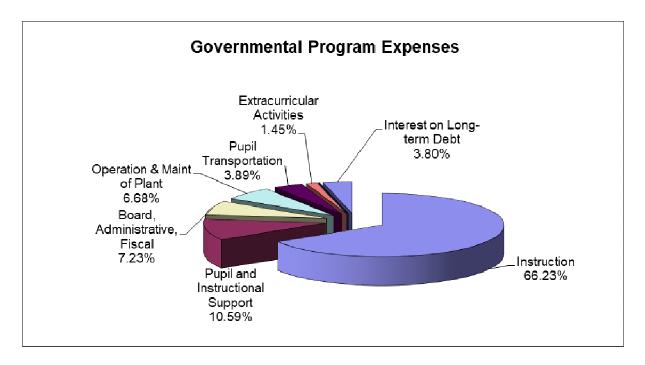

Governmental program expenditures increased by 2.84% from \$65.5 million to approximately \$67.5 million. Major changes in expenditures can be primarily attributed to the following:

- **↓** Total wages increased by 2.44% or \$662,652.
- **♣** Total employer benefits increased by 6.42% or \$1,099,365.
 - Employer contribution rate for employee retirement increased from 30.03% to 32.57%. This rate increase resulted in a \$910,433 increase in retirement expense.
 - O Social security expense experienced an increase of 2.41% due to the 2.44% increase in wages.
- Total professional and technical purchased services increased by \$125,923 with an increase of \$110,045 in intermediate unit (IU) services for special needs students and IU operated alternative education facilities.
- Total student tuition costs increased by 16.23%. Table 3 compares tuition expenses from the 2017 to the 2018 fiscal year.

- ♣ Student transportation services increased by \$193,768.
- **↓** Total infrastructure and replacement equipment costs increased by \$144,301.
- Total debt service principal payments increased by \$250,000 while interest payments decreased by \$61,823.

Management's Discussion and Analysis For Fiscal Year Ending June 30, 2018

Instructional costs contributed to 66.23% of total program expenses for governmental activities for Northeastern School District in fiscal year 2018.

The Statement of Activities reflects the cost of program services and the charges for services, sales, grants, and contributions offsetting those services. Table 4, for governmental activities, indicates the total cost of services and net cost of services.

Management's Discussion and Analysis For Fiscal Year Ending June 30, 2018

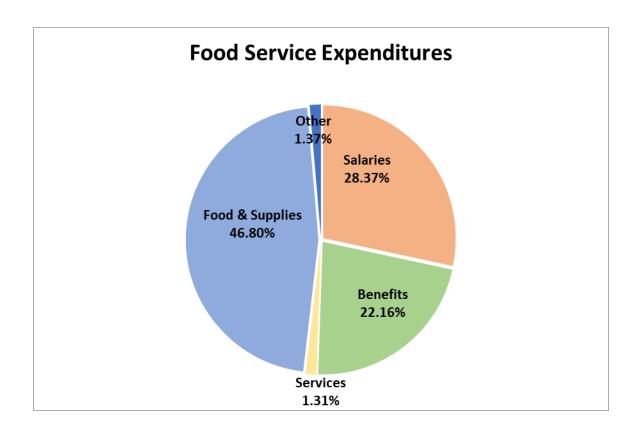

Of the 2017-2018 total cost of services for the governmental activities, 19.45% was funded by charges for services, grants, and contributions. The remaining costs were primarily funded by tax revenues and the basic instructional subsidy.

Business-Type Activity

The business-type activity at Northeastern School District is the food service operation. The school district provides both breakfast and lunch programs for grades K through 12. This program had revenues of \$2,535,785 and expenses of \$2,596,242 for the 2017-2018 fiscal year. The school district received 59.26% of its revenue from the federal and state reimbursable breakfast and lunch programs. Revenue from state and federal grants increased by 1.89% or \$27,880. Total revenue increased by 2.25% or \$56,957 while expenditures increased by 2.28% or \$57,764. The increase in expenses was mainly due to an increase of \$28,347 in wages as well as an increase of \$27,926 for food and supply costs. Total negative net position at June 30, 2018 was \$1,142,824, an increase of \$60,457 from the prior year net position. The negative net position was the result of the Net Pension Liability of \$2,561,606.

Considerable budget variances are noted below:

- ♣ Local revenues exceeded the original budget by 2.87% or \$1,234,414 due to several areas including: Interim real estate tax of \$333,564, earned income tax of \$468,099, real estate transfer tax of \$55,652, delinquent taxes of \$94,742 and interest on accounts of \$94,820.
- ♣ State revenue exceeded the original budget by 3.79% or \$863,275. The district received additional funds for basic education, special education, student transportation and retirement reimbursement.
- Federal revenue exceeded the original budget by 82.94% or \$470,531. The district received \$357,362 in funds for the Safe Schools/Healthy Students project.

Management's Discussion and Analysis For Fiscal Year Ending June 30, 2018

- Expenditures varied by less than 1% or \$147,451 under the original budget. Some noteworthy variances include the following:
 - Favorable variance of \$552,967 in employee salaries and benefits. Contributing to this total are:
 - Salaries savings of \$281,821
 - Social Security and Medicare savings of \$90,096
 - Retirement savings of \$148,799
 - Medical insurance savings of \$76,479
 - Charter school tuition exceeded the district budget by \$658,926 due to an increase in charter school enrollment.
 - o District transferred \$4,450,000 to the Capital Reserve Fund.
 - O District succeeded in balancing revenue and expenses without the utilization of the fund balance.

Capital Assets

At the end of fiscal year 2018, the school district had \$65,288,026 invested in capital assets (net of accumulated depreciation), \$65,076,588 in governmental activities.

Table 6 reflects fiscal year 2018 capital asset balances compared to fiscal year 2017, excluding capitalized bond issue costs.

Management's Discussion and Analysis For Fiscal Year Ending June 30, 2018

Total capital assets decreased by \$2,326,162 for the 2017-2018 fiscal year. This was primarily due to depreciation expense of \$3,634,912 that was offset by building and land improvements as well as equipment and technology acquisitions.

Business-type capital assets, net of accumulated depreciation, increased by \$10,273 during the 2017-2018 fiscal year. This increase was due to equipment purchases.

Debt

At June 30, 2018 the Northeastern School District had \$59,275,000 in bonds outstanding.

Table 7 summarizes and compares bonds outstanding for the 2018 and 2017 fiscal years.

Amounts reported for governmental activities in the statement of net position are different because:

Capital Assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of assets is \$125.478,743 and the accumulated depreciation is \$60,402,155.

65,076,588

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds.

1,003,328

Bond discounts and deferred charges from advance refundings are reported in the governmental funds when debt is issued. The Statement of Net Position reports these items as assets or liabilities with amortization over the life of the related debt. Bond discounts(premiums) totaled (\$5,111,943) with related accumulated amortization of \$1,250,985 deferred charges-advanced refunding totaled \$3,744,846 with accumulated amortization of \$929,880.

(1,045,992)

Bond insurance costs are reported as an expenditure in the governmental funds when debt is first issued. Bond insurance costs are reported as prepaid expenses on the statement on net position and are expensed in a rational systematic manner over the life of the related debt.

48,873

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Bonds/notes payable	\$ (59,275,000)
Accrued interest on the bonds/notes	(724,405)
Compensated absences	(1,129,154)
Other Post-Employment Benefits (OPEB)	(9,128,586)
Net Pension Liability	(97,501,122)

(167,758,267)

Deferred inflows and outflows of resources related to pensions and other postemployment benefits (OPEB) are applicable to future periods and, therefore are not reported within the funds. Deferred inflows and outflows related to pensions and OPEB are as follows (see note disclosures for detail):

Deferred outflows - pension	\$ 15,931,224
Deferred inflows – pension	(589,146)

\$ 2,787,503

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds capital outlays in the period.

Depreciation expense	\$ (3,634,912)	
Capital outlays	<u>1,298,477</u>	(2,336,435)

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Unearned tax revenues decreased by this amount this year.

Repayment of bond principal and capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Northeastern School District operates five elementary schools, one middle school, and one senior high school in York County, Pennsylvania. The District operates under current standards prescribed by the Pennsylvania Department of Education in accordance with the Pennsylvania Public School Code of 1949, as amended. The School Code grants administrative authority to the District's nine board members who are elected locally.

The financial statements of Northeastern School District (the District) have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting policies are as follows:

A. Reporting Entity

In evaluating the school as a reporting entity, management has addressed all potential component units which may or may not fall within the school's financial accountability. The criteria used to evaluate component units for possible inclusion as part of the school's reporting entity are financial accountability and the nature and significance of the relationship. This report presents the activities of Northeastern School District. The school district is not a component unit of another reporting entity.

The following joint ventures are not component units of Northeastern School District, and are not included in this report.

<u>York County School of Technology (YCST)</u> - is a separate legal entity. It was organized by the public school districts in York County to provide services in the county. Each of the public school districts appoints one board member to serve as a joint operating committee member for the YCST, and each has an ongoing financial responsibility to fund the YCST.

<u>Lincoln Intermediate Unit #12 (LIU)</u> – is a separate legal entity. It was organized by the school districts in York, Adams and Franklin counties to provide services to the districts. Each member school district appoints one member to serve on the Board of Directors of the LIU. Northeastern School District contracts with the LIU for special education services for its students.

<u>York Adams Academy</u> – is a separate legal entity. It was organized by ten public school districts in York County to provide services in the county. Each of the public school districts appoints one member to serve on the joint operating committee. As a member district, Northeastern School District has an ongoing financial responsibility to fund the operations of the York Adams Academy.

<u>York Adams Tax Bureau (the Bureau)</u> – is a separate legal entity. The District participates with fourteen other school districts for the collection of earned income taxes. Each participating school district appoints one member to serve on the joint operating committee. The Bureau's operating expenditures are deducted from the distributions that are made monthly to the District. Local municipalities also share the Bureau's expenditures on the same basis as the school districts.

<u>The Northeastern Foundation</u> – is a separate legal entity. It was established by the District in December 2007 to enhance and expand enrichment opportunities for all students of the Northeastern School District through community-wide participation and philanthropy. The Foundation is funded through gifts from individuals, area businesses, and other organizations. In May 2013, the Bobcat Foundation merged with the Scholarship Foundation, and the name was legally changed to The Northeastern Foundation.

Complete financial statements for each of the entities described above can be obtained from each respective administrative office.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting

The accounts of the school district are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent.

C. Basis of Presentation

Government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on the governmental funds, while the business-type activities include the enterprise fund of the school district. Fiduciary funds are excluded from the government-wide financial statements. Interfund accounts receivable, accounts payable and transfers are eliminated in the government-wide financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately in the government-wide financial statements from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities presents a comparison between direct expenses and program revenues for business-type activities and for each function of the District's governmental activities. Direct expenses are those that are clearly identifiable within a specific function or segment. Program revenues include charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. In addition, program revenues include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements are also provided in the report for all of the governmental funds, proprietary funds, and the fiduciary funds of the school district. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services, and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal operating revenues of the school district's enterprise fund are food service charges. Operating expenses for the school district's enterprise fund include food production costs, supplies, administrative costs, and depreciation on capital assets. All revenues or expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District reports the following major governmental funds:

The <u>general fund</u> is the District's primary operating fund. It accounts for all financial resources except those required to be in another fund.

The <u>capital projects fund</u> accounts for the financial resources used in the acquisition, construction and renovation of major capital facilities.

The District operates one enterprise fund, the <u>child nutrition services fund</u>. This fund accounts for the activities of the District's food service program.

The District accounts for assets held by the District in a trustee capacity in a <u>private-purpose trust fund</u>. These funds account for activities in the scholarship accounts. Scholarships are provided to particular students as prescribed by donor stipulations.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation (Continued)

The District accounts for assets held as an agent for various student activities in an agency fund.

Additionally, the District reports the following nonmajor governmental fund:

The <u>football athletic fund</u> accounts for money raised to support a football program at the district.

D. Measurement Focus and Basis of Accounting

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Net position (total assets and deferred outflows of resources less total liabilities and deferred inflows of resources) is used as a practical measure of economic resources, and the operating statement includes all transactions and events that increased or decreased net position. Depreciation is charged as expense against current operations and accumulated depreciation is reported on the statement of net position.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenue to be available if collected within 60 days of the end of the fiscal period. Revenue from federal, state and other grants designated for payment of specific school district expenditures is recognized when the related expenditures are incurred. Accordingly, when such funds are received, they are recorded as unearned revenues until earned. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

E. Budgets and Budgetary Accounting

An operating budget is adopted prior to the beginning of each year for the General Fund on a modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

The Pennsylvania School Code dictates specific procedures relative to adoption of the District's budget and reporting of its financial statements, specifically:

The school district, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.

The school district is required to publish notice by advertisement, at least once in two newspapers of general circulation in the municipality in which it is located, and within fifteen days of final action, that the proposed budget has been prepared and is available for public inspection at the administrative office of the school district.

Notice that public hearings will be held on the proposed operating budget must be included in the advertisement. Such hearings are required to be scheduled at least ten days prior to when final action on adoption is taken by the board.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. <u>Budgets and Budgetary Accounting</u> (Continued)

Legal budgetary control is maintained at the sub-function/major object level. The Board of School Directors may make transfers of funds appropriated to any particular item of expenditure by legislative action in accordance with the Pennsylvania School Code. Management may amend the budget at the sub-function/sub-object level without board approval. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

In order to preserve a portion of an appropriation for which an expenditure has been committed by a purchase order, contract or other form of commitment, an encumbrance is recorded. Encumbrances outstanding at year end are reported in the fund financial statements as assigned fund balances.

Included in the General Fund budget are program budgets as prescribed by the federal and state agencies funding the program. These budgets are approved on a program by program basis by the federal and state funding agencies.

F. Encumbrances

Encumbrances at year end are reported in the fund financial statements as assigned fund balance since they do not constitute expenditures or liabilities, but serve as authorization for expenditures in the subsequent year. As of June 30, 2018, the district had no encumbrances.

G. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Advances between funds, as reported in the fund financial statements, are offset by a nonspendable fund balance in the applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

H. Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used.

A physical inventory of the child nutrition fund food and supplies was taken as of June 30, 2018. The inventory consisted of purchased supplies, valued at cost using the first-in, first-out (FIFO) method.

I. Prepaid Expenses

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid expenses are recorded as expenses when consumed on the government-wide financial statements. Prepaid expenditures are recorded as expenditures on the fund financial statements if they will be consumed within three years. All other long-term prepaid expenditures are recorded as expenditures when purchased.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the school district as assets with an initial, individual cost of more than \$4,000 and an estimated useful life in excess of one year. Certain groups of assets are also to be capitalized when the group's acquisition cost exceeds \$4,000 in a given year. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

All reported capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	<u>Years</u>
Buildings	50
Building Improvements	15 to 40
Land Improvements	15
Furniture	10 to 20
Vehicles	10
Equipment	5 to 10
Textbooks	6
Library/Workbooks	15

Proprietary fund equipment purchases are capitalized in the proprietary fund at cost and depreciated on a straight-line basis.

K. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activity columns in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as administration expenditures.

L. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Cash, Cash Equivalents and Investments

Cash and cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and include investments with original maturities of three months or less.

All investments are stated at cost including accrued interest, which approximates fair value.

N. Fund Balance Policy

The District implemented *GASB 54*, Fund Balance Reporting and Governmental Fund Type Definitions, to address issues related to how fund balance was being reported. GASB 54 requires the fund balance amounts to be properly reported within one of the following fund balance categories:

 $\underline{\text{Nonspendable}}$ – amounts that are not in spendable form (such as inventory) or required to be legally or contractually maintained intact,

<u>Restricted</u> – amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,

<u>Committed</u> – amounts that can be used only for the specific purposes determined by a resolution of the District Board of Directors (the district's highest level of decision-making authority). The Board of Directors is required to adopt a resolution to modify or rescind the commitment,

<u>Assigned</u> – amounts intended to be used by the District for specific purposes that are neither restricted nor committed. Assignments can made by the governing body itself or by its designee,

<u>Unassigned</u> – residual classification for the District's general fund and includes all spendable amounts not contained in the other classifications. Negative unassigned fund balance may be reported in other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes.

Committed Fund Balance Policy

The District's committed fund balance are amounts required to be reported by the School Board, either because of School Board Policy or because of motions that passed at School Board meetings.

Assigned Fund Balance Policy

The District's assigned fund balances are amounts the District intends to use for a specific purpose as expressed by the School Board. The District adopted Policy Number 620, Fund Balance authorizing the Finance Committee or Director of Operations to assign fund balance.

Order of Fund Balance Spending Policy

The District's policy is to first apply restricted fund balance, then committed, assigned, and unassigned, respectively when an expenditure is incurred for purposes for which amounts in any of these classifications could be used.

Minimum Fund Balance Policy

The District has adopted a formal minimum fund balance policy. The District will strive to maintain an unassigned fund balance of not less than four percent (4%) of the budgeted expenditures for that fiscal year and not more than state guidelines. The total fund balance, consisting of several portions including committed, assigned and unassigned, may exceed eight percent (8%) of the budgeted expenditures for that fiscal year.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Accumulated compensated absences recorded in the government-wide statements represent the District's commitment to fund those costs from future operations.

A liability for these amounts is reported in governmental funds only if they have matured (e.g. as a result of employee resignations and retirements). An eligible member of the bargaining unit will qualify for a retirement incentive when they meet 20 years of service with Northeastern School District and are eligible for superannuation retirement under PSERS. Reimbursement for unused sick days is paid out at a rate of \$100 for up to 175 days.

P. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources until that time.

Q. Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources. It is the District's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

R. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

S. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from the PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

T. Changes in Accounting Standards and Restatement of Net Position

During the year ended June 30, 2018, the District adopted Governmental Accounting Standards Board (GASB) Statement No. 75, GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, to improve accounting and financial reporting for postemployment benefits other than pensions (OPEB).

T. Changes in Accounting Standards and Restatement of Net Position (Continued)

As a result, the District restated beginning net position as of July 1, 2017 as part of these statements. The restatement of the net position is detailed below.

U. Date of Management's Review

Management has evaluated subsequent events through December 19, 2018, the date the financial statements were available to be issued.

NOTE 2 - EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

An explanation of differences between the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities are identified on page 24 of the report.

Capital related differences include non-facility related capital asset purchases that are recorded as an expenditure in the functional categories listed under current expenditures in the government fund statements and capitalization and recording of depreciation expense in the statement of activities.

NOTE 3 - CASH AND CASH EQUIVALENTS AND INVESTMENTS

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to invest its monies as follows:

- Obligations of (1) the United States of America or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (2) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (3) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- Deposits in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law is pledged by the depository. The deposit and investment policy of the School District adheres to state statutes.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 3 - CASH AND CASH EQUIVALENTS AND INVESTMENTS (Continued)

There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the School District.

Cash equivalents are defined as short-term, highly liquid investments that are readily convertible to known amounts of cash and include investments with original maturities of three months or less. Cash and cash equivalents consist of demand deposits at various financial institutions, investments in overnight repurchase agreements, money market fund investments in Pennsylvania Local Government Investment Trust (PLGIT), and cash on hand of \$700.

The District holds investments in the Pennsylvania School District Liquid Asset Fund (PSDLAF). In accordance with the Government Accounting Standards Board, PSDLAF funds are valued at amortized cost. The amortized cost method involves valuing a security at its cost on the date of purchase and recording a constant amortization or accretion to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the investment. Although not registered with the Securities and Exchange Commission and not subject to regulatory oversight, PSDLAF acts like a money market mutual fund in that its objective is to maintain a stable net asset value of \$1 per share, is rated by a nationally recognized statistical rating organization, and is subject to an independent annual audit. PSDLAF does not have any limitations or restrictions on withdrawals from the fund.

A portion of the District's investments is in the Pennsylvania School District Liquid Asset Fund (PSDLAF). Although not registered with the Securities and Exchange Commission and not subject to regulatory oversight, PSDLAF acts like a money market mutual fund in that its objective is to maintain a stable net asset value of \$1 per share, is rated by a nationally recognized statistical rating organization, and is subject to an independent annual audit.

Concentration of Credit Risk

The District holds deposit accounts at various financial institutions. The total deposits of \$11,022,373 as of June 30, 2018 were invested in the various financial institutions as follows:

Financial Institution	Deposit Amount	Concentration Percentage
BB&T Banks less than 5%	\$ 10,898,190 124,183	98.9% 1.1%
	<u>\$ 11,022,373</u>	<u>100.00%</u>

Concentration of Credit Risk (Continued)

The District's investment policy states that when district funds are invested in any one issuer other than designated depository accounts, the amount of the investment shall be limited to 75 percent of total funds available for investment. The total funds available for investment as of June 30, 2018 were \$20,297,734.

Investments

As of June 30, 2018, the District had the following investments:

<u>Investments</u>	<u>Maturities</u>	Fair Value	Concentration Percentage

Credit Risk

The District's investment policy provides that any district investments in authorized instruments that are not backed by the full faith and credit of the federal or state government shall be limited to those with the highest two credit ratings available for such instruments by a recognized organization. As of June 30, 2018, the District's investment in PSDLAF was rated AAAm by Standard & Poor's, and the Certificate of Deposit with M&T Bank was rated A2 by Moody's.

Concentration of Credit Risk

The District limits funds invested in any one issuer to no more than 75 percent of total investments outstanding.

<u>Custodial Credit Risk – Investments</u>

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. As of June 30, 2018, \$8,454,690 of the District's total investments of \$8,480,007 were exposed to custodial credit risk as:

NOTE 4 - REAL ESTATE, PER CAPITA TAXES AND OCCUPATION TAXES, AND UNEARNED REVENUE

Based upon assessments provided by the County, the district levies property taxes. The taxes are collected by the six elected tax collectors from the six municipalities, which make up the school district. The school district tax rate for the year ended June 30, 2018 was 26.09 mills (\$26.09 per \$1,000 of assessed valuation) as levied by the Board of School Directors. The Board of School Directors also levied per capita and occupation taxes based on the census of residents in the school district. The per capita tax rate under Section 679 is \$5/person and under Act 511 is \$5/person. The occupation tax rate was \$10 per person. The schedule for real estate and per capita taxes levied for each fiscal year is as follows:

July 1 - Levy Date

July 1 - September 1 - 2% Discount Period

September 2 - November 2 - Face Payment Period

November 3 - December 31 - 10% Penalty Period

January 2 - Lien Date

The school district, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible which was measurable and available within 60 days was recognized as revenue, and the balance shown as a deferred inflow in the fund financial statements. The balances at June 30, 2018 are as follows:

	<u>\$ 4.450.721</u>	<u>\$ 4.450.721</u>

The purpose of the transfer from the general fund to the capital projects fund was to pay for capital projects. The General Fund also transferred funds to the Enterprise Fund to cover negative student accounts.

NOTE 8 - FUND BALANCE

The District's restricted fund balance consists of amounts held for capital purposes of \$6,674,578. As of June 30, 2018, the District's restricted fund balance was \$6,674,578.

As of June 30, 2018, the District's committed fund balance of \$2,775,000 consisted of amounts designated by the Board for potential appropriations in excess of anticipated revenues in future school years for retirement costs in the amount of \$2,000,000 as well as \$775,000 set aside for High School renovation costs. The District set aside the \$2,000,000 amount in a stabilization arrangement for use to offset the anticipated increase in PSERS retirement contribution rates. These amounts may only be expended for these specific circumstances unless the commitment is rescinded by the School Board.

As of June 30, 2018, the District's assigned fund balance in the amount of \$3,582,108 consisted of amounts set aside for football athletic activities of \$82,108 and \$3,500,000 for future capital purposes.

NOTE 10 - DELVAL INTEREST RATE SWAP AGREEMENT

During the year ended June 30, 2014, the District issued its General Obligation Note, Series of 2014 (2014 Note) to the Delaware Valley Regional Finance Authority ("DelVal") and executed a Loan Agreement with DelVal. DelVal has entered into interest rate swap transactions related to the DelVal Bonds that fund the DelVal Loan Program to hedge against changes in long-term interest rates, and DelVal entered into an interest rate swap transaction related to the 2014 Note to provide a fixed interest rate to the District. In conjunction with the issuance of the 2014 Note, the Board of School Directors adopted an Interest Rate Swap Management Policy dated December 16, 2013.

The interest rate on the 2014 Note is determined by the Program Administrator to fund (i) payments for debt service on DelVal's bond issues, (ii) net payments on interest rate swap agreements allocable to the loans, and (iii) expense to operate the DelVal Loan Program. The average rate shown for variable rate loans is the average rate for the annual billing period.

DelVal has entered into interest rate swap agreements with Bank of America, N.A., Barclays Bank PLC, Citibank, N.A., PNC Bank, National Association, and Toronto-Dominion Bank (the Counterparties) related to DelVal's Bonds and fixed rate loans. The market value is the estimated price that DelVal would receive (pay) if the agreements were terminated as of June 30, 2018. If DelVal were obligated to make a payment and sufficient funds were not available, DelVal could assess each borrower its allocable share of the termination payment.

				Market V	alue	of
			I	Related Int	eres	t Rate

2014 Note	2.365%	\$ 4,049,000	\$	(1,670)	\$	468,151

An interest rate swap agreement may be terminated under the following circumstances:

- a. DelVal and the Counterparty mutually consent to the termination,
- b. DelVal or the Counterparty default or their financial conditions deteriorate to make a default imminent,
- c. The borrower defaults on its loan, or
- d. The borrower prepays or terminates the fixed rate of a fixed rate loan before its scheduled termination date.

DelVal would seek to replace any terminated swap agreement related to DelVal's bonds with a new agreement on similar terms and conditions. At market value, the loss or gain of the replacement swap should offset the gain or loss from the termination payment. DelVal may not be able to secure a replacement interest rate swap if the swap market is not functioning normally or if DelVal does not have access to the swap market. The long term, unsecured, senior debt ratings of DelVal are currently A1 and A+ by Moody's Investors Service and Standard & Poor's, respectively.

As of June 30, 2018, DelVal would have received a payment of approximately \$121 million if the swap agreements related to the DelVal Series and borrowers' fixed rate loans were terminated. On June 30, 2018, swap rates would need to shift upward more than 4.00% before DelVal would owe a payment upon termination.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 10 - DELVAL INTEREST RATE SWAP AGREEMENT (Continued)

DelVal entered into interest rate swap transactions related to its Bonds to hedge its exposure to future changes in long-term interest rates. These transactions would only be terminated and not replaced with comparable transactions if the DelVal Loan Program were being collapsed. The DelVal swap transactions related to the DelVal Bonds are effective under both the consistent critical terms and the quantitative methods standards of GASB 53.

NOTE 11 - OPERATING LEASES

The District signed a lease rental agreement with the York County School of Technology Authority in which the District agreed to make payments of their pro-rated share of the Authority's debt service. The District's pro-rated share is calculated annually based on assessed market value. During the year ended June 30, 2018, the District paid \$193,902 in operating lease payments for its pro-rated share of the Authority's debt service.

In October 2017, the District entered into a lease agreement with LEAF Capital Funding, LLC for the rental of copiers to be used throughout the District. The term of the lease is for 48 months. During the year ended June 30, 2018, the District paid \$81,471 in operating lease payments.

In October 2017, the District entered into a lease agreement with Subaru Motors Finance for the use of a 2018 Subaru Impreza to be used in the Driver's Education Program. The term of the lease is for 36 months with a monthly payment of \$215. During the year ended June 30, 2018, the District paid \$2,150 in operating lease payments for the vehicle.

The future annual lease payments for the District's pro-rated share are as follows:

NOTE 12 - PENSION PLAN

Plan Description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 12 - PENSION PLAN (Continued)

Benefits Provided (Continued)

Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirements benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Member Contributions:

Active members who joined the system prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the members' qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions:

The District's contractually required contribution rate for fiscal year ended June 30, 2018 was 31.74% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$8,815,344 for the year ended June 30, 2018.

NOTE 12 - PENSION PLAN (Continued)

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u> Related to Pensions

At June 30, 2018, the District reported a liability of \$100,062,728 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2016 to June 30, 2017. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2017, the District's proportion was .2026 percent, which was an increase of .0023 from its proportion measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized pension expense of \$10,735,811. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual investment earnings	\$ 2,318,598	\$
Net difference between projected and actual experience	1,043,878	604,624
Changes in Assumption	2,718,225

proportionate share of total contributions	<u>138,279</u>	
	<u>\$ 16,349,665</u>	<u>\$ 604,624</u>

\$8,815,344 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:

2018	\$ 1,692,977
2019	3,234,260
2020	2,102,268
2021	(99,808)

Actuarial Assumptions

The total pension liability as of June 30, 2017 was determined by rolling forward the System's total pension liability as of June 30, 2016 to June 30, 2017 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 7.25%, includes inflation at 2.75%.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were based on the RP-2014 Mortality Tables for Male and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 12 - PENSION PLAN (Continued)

Actuarial Assumptions (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
ASSET GIASS	Allocation	rate of retain
Global public equity	20.0%	5.1%
Fixed income	36.0%	2.6%
Commodities	8.0%	3.0%
Absolute return	10.0%	3.4%
Risk parity	10.0%	3.8%
Infrastructure/MLP's	8.0%	4.8%
Real Estate	10.0%	3.6%
Alternative Investments	15.0%	6.2%
Cash	3.0%	0.6%
Financing (LIBOR)	(20.0%)	1.1%
	<u>_100.0%</u>	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2017.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
District's proportionate share of the net pension liability	\$123,166,000	\$100,062,728	\$ 80,553,000

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

NOTE 13 - POST EMPLOYMENT BENEFITS OTHER THAN PENSION BENEFITS (OPEB)

The District's employees are provided other postemployment benefits (OPEB) through two defined benefit OPEB plans: The PSERS Health Insurance Premium Assistance Program and the Northeastern School District Postemployment Benefits Plan.

PSERS Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2017, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- · Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2017, there were no assumed future benefit increases to participating eligible retirees.

Employer Contributions

The District's contractually required contribution rate for the fiscal year ended June 30, 2018 was 0.83% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$230,521 for the year ended June 30, 2018.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2018, the District reported a liability of \$4,127,806 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2016 to June 30, 2017. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2018, the District's proportion was .2026 percent, which was an increase of .0023 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2018, the District recognized OPEB expense of \$183,172. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Net difference between projected and actual	_		_

\$230,521 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Actuarial Assumptions

The total OPEB liability as of June 30, 2017 was determined by rolling forward the System's total OPEB liability as of June 30, 2016 to June 30, 2017 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 3.13% S&P 20 Year Municipal Bond Rate.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation Rate
 - Eligible retirees will elect to participate Pre-age 65 at 50%.
 - Eligible retirees will elect to participate Post age 65 at 70%.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2015 determined the employer contribution rate for fiscal year 2017.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant
 Tables with age set back 3 for both males and females for healthy annuitants and for dependent
 beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back
 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the
 RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders
 assuming the population consists of 25% males and 75% females is used to determine actuarial
 equivalent benefits.)

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2017.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 3.13%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 3.13% which represents the S&P 20-year Municipal Bond Rate at June 30, 2017, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2017, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2016, 91,797 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2016, 1,354 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the net OPEB liability for June 30, 2017, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if its health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

Northeastern School District Postemployment Benefits Plan (District Plan)

Plan Description

The District's postemployment healthcare plan is a single-employee defined benefit healthcare plan. The plan provides medical insurance benefits to eligible retirees and their spouses. The Board of School Directors has the authority to establish and amend benefit provisions through the collective bargaining process with members of the professional and support staff, an agreement with administrative employees, and individual employment contracts with certain employees. The plan does not issue any financial reports and is not included in the report of any public employee retirement system or any other entity.

Benefits Provided

The District plan provides medical, prescription drug, and dental coverage under the group insurance program in force for employees retiring prior to Medicare eligibility. Coverage does not include life insurance or disability insurance. All coverage terminates upon eligibility of Medicare by the retiring employee, death of a retiree, or upon non-receipt of premium, with the exception of administrators who retired prior to June 30, 2008, in which the duration is a lifetime benefit. For eligible administrators the District will pay the single coverage premium for the administrator only. The member must pay 102% of any additional premium due to the coverage of a spouse or dependents. For administrators who retired prior to June 30, 2008, the member is responsible for 102% of the premium costs. For administrators who retired after July 1, 2008 and prior to June 30, 2012, coverage and premium sharing are in accordance with Act 110. For administrators who retire after June 30, 2012, the member must be eligible for one of the following: must have 15 years of District service (10 years as an administrator), 27 years of PSERS service and are eligible for PSERS retirement or must be Act 110 eligible. All remaining employees who retire per PSERS guidelines are eligible for the benefit.

Employees Covered By Benefit Terms

At July 1, 2017, the following employees were covered by the benefit terms:

Total OPEB Liability

Withdrawal

The District's total OPEB liability of \$5,000,780 was measured as of July 1, 2017, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate 3.13 percent

Salary increases 2.5 percent cost of living adjustment, 1 percent real wage

growth, and merit increases which varies from 2.75% to 0%

Rates for new employees start at 22.9% and decrease with

age and service

Retirement Based on PSERS plan experience

Retiree Contributions Increase at the same rate as the healthcare cost trend rate

Healthcare Cost Trend Rates 6 percent in 2017, 5.5 percent in 2018-2023, rates

gradually decrease from 5.4 to 3.9 percent by 2075

Per Capita Claims Cost Based on the expected portion of the group's overall cost

attributed to individuals in specified age and gender

brackets

Actuarial Cost Method Entry Age Normal

The District plan assumes that 100% of administrators eligible for subsidized coverage and 50% of Teachers, Support Staff and Administrators not eligible for subsidized coverage will elect coverage. The plan also assumes that 45% of employees will be married and have a spouse covered by the plan at retirement. Wives are assumed to be two years younger than their husbands.

Separate mortality rates are assumed for preretirement and postretirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation.

Grant Programs

The school district participates in federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The school district is potentially liable for any expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

NOTE 15 - RISK MANAGEMENT

The District is exposed to various risks of loss related to theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District has purchased various insurance policies to safeguard its assets from risk of loss. Insurance coverage appears to be consistent with previous years. During the year ended June 30, 2018 and the two previous fiscal years, no settlements exceeded insurance coverage.

NOTE 16 - SELF INSURANCE

The District is a member of Lincoln Benefit Trust, a claims servicing pool which pays claims for health benefits submitted by the employees of its twenty-two participating local education agencies. Each district contributes amounts to the trust to cover annual claim and operating costs, and to fund reserves for future benefits. Additionally, each participating district in the trust remains responsible for the economic risk of providing benefits to its employees. Claims incurred from \$300,000 and up to \$500,000 are paid from a stoploss insurance policy purchased by the Trust through the PA Trust. Stop loss insurance is purchased by the Trust through an insurance carrier for \$500,000 and above per individual. During the year ended June 30, 2018, the accrued and incurred claims of the District did exceed its cumulative contributions.

The changes in net position for the District's account in the Trust for the years ended June 30, 2018 and 2017 are detailed below:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 16 - SELF INSURANCE (Continued)

The Lincoln Benefit Trust had net position of \$100,637,105 at June 30, 2018, and an increase in net position of \$1,069,764 as of and for the year ended June 30, 2018. The financial statements for Lincoln Benefit Trust are available at the District.

NOTE 17 - DEFERRED CHARGES, ADVANCED REFUNDINGS

In the event that advance refunding of debt results in a defeasance, full accrual basis of accounting requires that the amounts deposited in escrow in excess of the debt principal are to be amortized over the life of the old debt or the life of the new debt, whichever is shorter. The amortization of this charge will be recognized as a component of interest expense. The District currently has two bond refinancing charges that it is amortizing, utilizing the straight line method, with the longest to be amortized through 2032. Under the modified accrual basis of accounting, the amounts are recognized as debt service expenditures when paid to the escrow account and the debt is defeased. For the year ended June 30, 2018, the District amortized \$232,470 as a component of interest expense.

NOTE 18 - SERVICE AGREEMENT

During the year ended June 30, 2014, the District entered into a service agreement with Questeq, Inc. for technology management for July 1, 2014 through June 30, 2019. The District paid a one-time startup fee of \$10,000 in April 2014. Fees are to be paid in equal monthly payments, the total of which per year are as follows:

2019 \$ 801,073

NOTE 19 - TAX ABATEMENTS

The District enters into property tax abatement agreements with local businesses under the Local Economic Revitalization Tax Assistance Act (LERTA) of 1977. Under the Act, local taxing authorities may provide for tax exemption for certain deteriorated industrial, commercial, and other business property and for new construction in deteriorated areas of economically depressed communities.

For the year ended June 30, 2018, the District abated property taxes totaling \$1,154,182 under this program, including the following tax abatement agreements that each exceeded 10 percent of the total amount abated:

- An abatement to a corporation for building a facility for storage and distribution as a third-party logistics service. The abatement amounted to \$154,756.
- An abatement to a corporation for building a storage warehouse. The abatement amounted to \$137,709.
- An abatement to a business to build a warehouse storage facility to a manufacturer of wire and cable used in the distribution and transmission of electricity. This abatement amounted to \$185,404.
- An abatement to a corporation to build a storage facility to be used in restaurant storage. This abatement amounted to \$626,913.
- An abatement to a supplier of medical equipment and devices in the healthcare industry. This abatement amounted to \$49,400.

The District is also subject to the Pennsylvania Department of Agriculture's Clean and Green Program. The Clean and Green program is a preferential tax assessment program that bases property taxes on use values rather than fair market values. The Pennsylvania General Assembly enacted the program in 1974 as a tool to encourage protection of the Commonwealth's valuable farmland, forestland and open spaces. For the year ended June 30, 2018, the District abated property taxes totaling \$2,269,519 under this program.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2018

NOTE 20 - COMMITMENTS

In April 2018, the District awarded a bid for the York Haven Elementary School re-roofing project to Budget Renovations and Roofing, Inc. in the amount of \$379,818. As of June 30, 2018, \$146,820 had been completed, leaving a remaining commitment of \$232,998 on the project.

NOTE 21 - SUBSEQUENT EVENTS

In August 2018, the District approved the purchase and installation of a new operable partition in a multipurpose room for a fee of \$78,200 from Builder's Specialty Service, Inc.

The District also approved a masonry restoration project at the district administration building to Witmer Masonry, Inc. in the amount of \$282,000. This project also required a contract with Core Design Group for professional engineering services for a fee of \$24,000.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED JUNE 30, 2018

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Expenditures of Federal Awards is prepared on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles an Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements. The District has elected not to use the 10% de minimum indirect cost rate as allowed under The Uniform Guidance.

NOTE 2 - NON-MONETARY ASSISTANCE

NSLP – Value of UDSA Donated Commodities (CFDA #10.555) – The District received commodities from the Pennsylvania Department of Agriculture valued at fair market value.

NOTE 3 - ACCESS PROGRAM

The ACCESS Program is a medical assistance program that reimburses local educational agencies for direct, eligible health-related services provided to enrolled special needs students. Reimbursements are federal money but are classified as fee-for-service revenues and are not considered federal financial assistance. Because only federal financial assistance is included on the Schedule of Expenditures of Federal Awards, ACCESS reimbursements are not included on the Schedule. The amount of ACCESS funding received for the year ended June 30, 2018 was \$119,725.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors Northeastern School District Manchester, Pennsylvania

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Northeastern School District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Northeastern School District's basic financial statements, and have issued our report thereon dated December 19, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Northeastern School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Northeastern School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Northeastern School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the school district's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of School Directors Northeastern School District Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Northeastern School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of School Directors Northeastern School District Manchester, Pennsylvania

Report on Compliance for Each Major Federal Program

We have audited Northeastern School District's compliance with the types of compliance requirements described in the OMB *Compliance Supplement* that could have a direct and material effect on each of Northeastern School District's major federal programs for the year ended June 30, 2018. Northeastern School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statues, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Northeastern School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Northeastern School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Northeastern School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Northeastern School District complied, in all material respects, with the types compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

Report on Internal Control Over Compliance

Management of Northeastern School District is responsible for establishing and maintaining effective internal control over compliance requirements referred to above. In planning and performing our audit, we considered Northeastern School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Northeastern School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly this report is not suitable for any other purpose.
